

Amendments to the Specification:

Please replace the paragraph beginning at line 23 on page 6 with the following rewritten paragraph:

The functioning of the invention will now be described with reference being made to fig. 2 and 3, where the latter shows a block schematic for performing the invention according to the invention.

Please replace the paragraph beginning at line 17 on page 7 with the following rewritten paragraph:

The devices described above are normally provided in one or more components or chips, where one such chip 36 is schematically outlined in fig. 4. The switch can, when two chips are provided, either be provided in the chip including the modulation unit or in the chip including the power amplifying unit. It can of course also be provided as a separate entity connected between these chips.
